Flag: Follow up

No problem Quinn. We can get a meeting arranged. Let me know if you have a timeframe in mind.

Subject: Follow-up on Discussion with Canada

Good Morning Royan and Haley,

I am following up on the conversation with Canada yesterday about treated seeds. It seems like there would be interest on both ends to have another meeting specifically on treated seeds. Additionally, I know we were talking about potentially getting information regarding treated seed imported or produced but from others at PMRA but it seems like this group may know more about the importation of pesticides so we could potentially discuss that as well. Additionally, I would be interested in discussing the new legislation that is currently out for public comment that was brought up during the discussion. Please let me know if it would be possible to schedule another meeting with a subset of the group yesterday to further discuss treated seeds.

Thank you,
Quinn
